# GERMANS BEGIN NEW RETREAT BETWEEN LAON AND CAMBRAI ROAD TO BRUSSELS OPEN, GREAT FLANK MOVEMENT PROBABLE

## FRENCH TROOPS SWIFTLY PURSUING FLYING HORDES BETWEEN OISE AND SERRE

Angulcourt is Taken; French Sweep Over the Aisne in Argonne; Tumultuous Scenes Attend Meeting of Hungarian Diet; Members Hurl Epithets at Each Other and Riot Almost is Precipitated.

## FEDERAL STATES ARE TO BE FORMED IN AUSTRIA

PARIS, Oct. 18.—The Germans have begun a new retirement movement in the area between the Oise and Serre rivers, between Laon and Cambrai, according to the official statement from the war office today.

French troops advancing from Achery and Chalons are in pursuit of the German rear guard. Angulcourt has been occupied by the French. In the Argonne region the French have crossed the Aisne near Vouziers. Fighting continues in the area west of Grandpre.

### UPROAR IN HUNGARIAN DIET.

BASEL, Oct. 10.—Scenes of tumult prevailed at the meeting of the Hungarian diet yesterday during which demands for peace were made and it was announced that Austria was being organized on a federal basis. So great was the uproar that the presiding officer was obliged to adjourn the sitting. The disorder continued, however, the deputies calling each other "blackguards," "liars," "traitors" and "slaves."

Dr. Alexander Wekerle, the Hungarian premier, said that the federal states which will be formed in Austria will organize their economic and military policies on an autonomous and independent basis. He made an appeal for united action by all parties.

### TONE OF PRESIDENT

#### NOTE DISLIKED

BERNE, Oct. 18.—President Wilson's reply to the German note has created a new state of affairs in diplomatic discussions relative to peace. It is reported here from German sources, and the German reply, it is said, will make it clearly understood that the tone employed by the President was open to objections.

There have been passionate discussions of the President's reply at meetings of all the groups of the Reichstag, but no line of policy has been determined although there has been prolonged deliberation on the subject. The presence of Field Marshal von Hindenburg in Berlin is believed to foreshadow the drafting of the German reply to Mr. Wilson.

### FURTHER OMINOUS SOUNDS IN GERMANY

ZURICH, Oct. 18. (Hava.)—Official statements issued by the Entente war offices no longer are published in Germany. Rumors reaching here are to the effect that there have been outbreaks among the soldiers at the front. Abusive placards concerning the emperor, crown prince, Field Marshal von Hindenburg and General Ludendorff have been posted in various railroad stations in Germany.

### 4,000 PRISONERS IN DAY. HAIG REPORTS

LONDON, Oct. 18.—More than 4,000 prisoners were captured by Field Marshal Haig's forces yesterday in their offensive in the Bobruis-LeCateau region, the British war office announced today.

### ALL MACEDONIA NOW IN ALLIED HANDS

SALONIKI, Thursday, Oct. 17.—Greek troops today completed the reoccupation of the region of Greek Macedonia which has been held by the Bulgarians and Turks.

### KILLED BY CAR

Vanderbilt Lad Struck by West Penn Tuesday Yesterday.

George W. Thomas, 12 year old son of Mr. and Mrs. J. F. Thomas of Vanderbilts, was killed when struck by a West Penn street car yesterday afternoon at that place. The body was brought to Connellsville and removed to the funeral parlors of J. E. Sims, where it was prepared for burial.

The body will be taken to the Vanderbilts home this afternoon and funeral services will be held tomorrow.

### ON HOME STRETCH

Fourth Loan Total at Noon Today \$4,250,000,000  
By Associated Press.

WASHINGTON, Oct. 18.—The Fourth Liberty Loan today neared the home stretch of the campaign with \$4,250,000,000 subscribed and \$1,760,000,000 to be raised in two days remaining.

Despite this tremendous unsubscribed campaign throughout the country reported they would be satisfied with nothing less than over-subscription.

### WILL NOT LIFT BAN

On Wholesale and Retail Liquor Dealers. Says State Health Chief.

HARRISBURG, Oct. 18.—Acting Health Commissioner B. F. Royer, answering the request of William H. Knight, coroner of Philadelphia, that the quarantine be lifted from wholesale and retail liquor dealers, refuses to rescind his action or to give any date when the ban would be lifted.

Cornelius Knight in his communication declared that "high grade whisky" is indispensable in the treatment of influenza, and that druggists are furnishing an inferior grade on prescription at \$52.40 a gallon. In refusing to lift the quarantine Dr. Royer recounts the ravages of the disease and says that the cause cited of profiteering must be isolated, and that steps will be taken to furnish stimulants where it is shown that they are necessary.

For the first 16 days 8,323 deaths from influenza and 3,484 from pneumonia have been reported in the state. Two drunks arrested.

### READY TO START OUT TO BOMB METZ

These American aviators are consulting maps just prior to starting upon a bombing expedition on Metz, the Alsatian capital.

## WE SHALL FAIL IN EVERYTHING FOUGHT FOR IF THE LOAN FAILS

WASHINGTON, Oct. 18.—Subscriptions reported and estimated up to noon Thursday amount to \$4,000,000,000, leaving at least \$2,000,000,000 to complete the Fourth Liberty Loan. Only two days are left within which to raise this vast sum. No country on earth but America could raise so vast a sum in so short a time. America can do it and must do it. The destinies of the world and the hopes of civilization are centered upon America.

We shall fail in everything we have fought for or hope to gain in this war if the Fourth Liberty Loan is defeated. Let every true American citizen today examine himself under the white light of patriotism and say whether or not he has done his utmost in this emergency. The highest obligations of duty and patriotism command every true American to go immediately to his bank or to his Liberty Loan committee and subscribe to the limit of his ability to the Fourth Liberty Loan bonds. Don't delay, don't wait to be urged. Be as quick to do your part in this Fourth Liberty Loan as our soldiers in France are quick to obey the orders to charge the enemy.

Buy Liberty Bonds on the instalment plan if you cannot buy them for cash. Every patriotic bank will help you. If every patriotic citizen will do his duty today victory for the Fourth Liberty Loan is certain. The continued victories of our armies in Europe, the certain defeat of our enemies and the glorious triumph of the cause of liberty depend upon what the American people do in the remaining two days of the Fourth Liberty Loan campaign.

W. G. M'ADOO.

### HUNDRED TENTH GETS MONTH'S REST BACK OF LINES

Our Vacation Is Here at Last! Writes James A. Barr to His Parents in This City.

In a letter received by Mr. and Mrs. J. S. Barr from their son James A. Barr, with the 10th Medical Detachment in France, he says the division, the 28th Pennsylvania, is now on a "vacation." He says the boys expect they will likely get 30 days rest. The letter, written September 3, follows in part:

"Dear Mother:  
"Our vacation is at last here. Our division was relieved last night and we are now camping in a big woods waiting for it to assemble. We all had a hot shower bath, got rid of the clothes and were given new clothes. In a day or so we will probably start for the south for at least a 30 day rest."

"Received Ruby Dull's letter. Will write you all in a week when we get settled down. Yesterday when we were relieved made a year and one day since we left home. We have been fighting off and on ever since July 15. We sure did see some country—and other things—during that time. We crossed the Marne three times and I was in Chateau Thierry the day the Germans were driven out.

"I received some cards and pictures from Ed Keagy. Will write again soon. Ross Tissie and Earl Skinner are well."

Nurse Stricken.  
Miss Isabella Bigam, who went to Camp Moultrie, Charleston, S. C., to nurse influenza patients, is ill herself with the disease.

Two Drunks Arrested.  
Two men arrested for drunkenness were given hearings in police court this morning.

### CALL THIS OFFICE

If Carrier Does Not Deliver Your Paper to You.

Some readers of The Courier have not been getting their papers regularly each evening during this week on account of several new route boys delivering the copies in the place of the regular route carriers, many of whom are confined to their homes with severe attacks of grippe.

The missed issues of The Courier can be secured by calling at this office, and if readers will notify the company an effort will be made to have the temporary carriers reach them. Readers who are being missed are asked to stop any Courier route boy and ask for a paper.

### MYSTERY SOLVED

Banner Parents Receive Letter from Son Missing Two Weeks.

Mystery as to the whereabouts of Edwin Miller, of DuBois, was cleared yesterday on the receipt of a letter from him saying he was a patient at the Magee hospital, Pittsburgh.

Mr. and Mrs. Andrew Miller, parents of the young man who had heard nothing from him for two weeks and search had disclosed no clues. From the letter it was learned that Edwin, who was in motor mechanics training at Pittsburgh, had become unconscious at a football game and since then was unable to communicate with the folks at home. He is getting along all right.

At a meeting this week the town council voted to stand by the board of health dissolved by Dr. B. Franklin Royer, state health commissioner. The town is awaiting instructions from Dr. Royer. In the meantime there is no health board.

CAPT. J. ED. BOYLE OF 110TH IS SLIGHTLY WOUNDED  
Capt. J. Edward Boyle of the Machine Gun Company of the 110th Infantry, a well known member of the "Old Tenth," has been reported slightly wounded in action in France.

### Weather Forecast

Partly cloudy tonight and Saturday probably showers; cooler, is the noon weather forecast for Western Pennsylvania.

### Temperature Record.

	1918	1917
Maximum	76	76
Minimum	50	56
Mean	63	66

## FALL OF BELGIAN SEA BASE OPENS WAY FOR LANDING OF FURTHER POWERFUL ARMIES

### SEVEN PATIENTS ARRIVE, ONE DIES AT NEW HOSPITAL

Number of New Cases Received is Falling Off From Thursday's Report.

### MASONIC TEMPLE OFFERED

Commodious Building in South Pittsburg Street Available If the Present Emergency Quarters Prove Inadequate; Everything Goes Well.

Seven new patients have been admitted to the emergency hospital established in the Maccabees building by the Baltimore & Ohio railroad company. This shows a decrease from Thursday's report when 13 were received. There are still a number of unoccupied beds and sufficient nurses and attendants have been secured to give the sick persons all the necessary care and attention.

The first death occurred at the hospital yesterday. J. R. Burley, a freight conductor from Confluence, passed away at 5:45 o'clock in the evening.

The body was removed to the funeral parlors of C. C. Mitchell and will be sent to Confluence some time today for burial. The patient was brought from Confluence yesterday morning.

The Masonic Temple is working smoothly and systematically. Not a detail has been overlooked and every patient is being given the best of care. The local branch of the Red Cross is doing everything possible to assist those in charge of the hospital.

The Masonic Temple has been offered as another emergency hospital should the present quarters at the Maccabees building be insufficient to hold all the cases. The entire equipment of the lodge has also been offered.

Ralph Gannier, the high school science instructor, who was one of the first patients admitted to the hospital, is improving. His condition when taken there was critical.

### FOUR OF FAMILY DIE, THREE OTHERS ARE NEAR DEATH

Son, Father, Mother, Daughter in Turn Suffered to Spanish Influenza and Pneumonia.

Since last Friday morning four members of the family of Mr. and Mrs. Henry Fisher, whose home is between Smithfield and Cheat Haven, have died of Spanish influenza and pneumonia and slight hope is held for the remaining three who are desperately ill. All were stricken the same night, it is stated, and their condition was such from the start that they were unable to give each other assistance or summon aid, and lay about in each other's arms.

Section 2. All able bodied males between the ages of nineteen and twenty-one years, including those who are unattached or single, or who are not engaged in some lawful occupation or trade or employment, or at least thirty-six (36) years of age, are required to register in each and every week.

Section 3. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

### 300 INFLUENZA CASES

Reported at Mount Pleasant and in That Vicinity.

Special to The Courier.

MOUNT PLEASANT, Oct. 18.—From canvas of the physicians making calls it is understood that at least 300 cases of Spanish influenza are being looked after in the town and the coke region around. Some of the cases are serious. Several persons are suffering with hemorrhages, others developing pneumonia.

At a meeting this week the town council voted to stand by the board of health dissolved by Dr. B. Franklin Royer, state health commissioner. The town is awaiting instructions from Dr. Royer. In the meantime there is no health board.

CAPT. J. ED. BOYLE OF 110TH IS SLIGHTLY WOUNDED  
Capt. J. Edward Boyle of the Machine Gun Company of the 110th Infantry, a well known member of the "Old Tenth," has been reported slightly wounded in action in France.

### LILLE IN DELIRIUM OF JOY WHEN HUNS LEAVE

PARIS, Oct. 18.—"I have just witnessed the most touching spectacle of my life. The whole city in a delirium of joy was ready to throw itself upon us the first to enter Lille," telegraphed the war correspondent of the Petit Journal from that city.

"Tonight at 9 o'clock near Armentieres, an officer shouted to us 'Lille is taken.' We sped our autos on the road to victory. Two miles from Lille two young girls ran out in front of us crying, amid sobs of joy. They have gone."

"Speak to us," they cried. We opened the windows and told of our victory. We told of the Bulgarian capitulation. We told of the Turkish promise to quit the war. Then we told them that President Wilson had refused to grant an armistice and demanded Emperor William's head off. The crowd in a frenzy, tossed everything it could lay hands on into the air.

"There remained 120,000 inhabitants in Lille. The Germans had carried off all the male population more than 14 years of age. The city is not greatly damaged and the public buildings are intact."

### YON ARMENT'S ARMY GRADUALLY WEAKENING

PARIS, Oct. 18.—General von Armin's German army is no longer strong enough to sustain operations on the extended front from the French to the Dutch frontier. It is therefore reasonable to expect that its march across Belgium will be rapid and that King Albert will re-enter his capital earlier than was hoped.

At the very moment the Flanders battle was won another offensive was started in the direction of Hirson and Verins by Anglo-American and American forces. The object is to take the armies of the Crown Prince under shelter of the Hindenburg line on the bank and condemn them to an early retreat towards the Ardennes across the front of the powerful Allied right wing.

The way back to Germany lies through two bottle necks separated by the Ardennes—the one between Liège and Dinant, and the other between Monthery and Verdun. The latter is already partly blocked.

While it may be admitted that the Germans are fighting well and conducting their retreat with great skill sober military opinion here is that the great German military machine is in danger of collapse at no very distant date.

**"BIG INNOCENT BOY,"  
WAS WILLIAM HOAG;  
REALIZED MISTAKE**

Members of Family of Late Broad  
Ford Young Man Issue Statement  
in His Behalf.

That William J. Hoag, who was recently inducted into the Army in opposition to his wishes and who died at the Columbus barracks, was only a "big innocent boy" is the assertion of members of the family who today asked The Courier to publish the following:

On Saturday, October 12, 1912, William J. Hoag, aged 20, a life-long resident of Morgan Station, Fayette county, died of pneumonia in the government barracks at Columbus, Ohio, while in the military service of the United States government. "Billy" Hoag, as he was familiarly known to his friends, was a big, innocent boy, affectionate and tender-hearted as a mother and was never known to do harm to a living creature. He so utterly abhorred the taking of human life that he believed his conscience to be a higher law than that of the land, respecting the taking of human life. The unfortunate young man made a grave mistake which he afterwards realized and his recent death in the eyes of the American public. Now that he has passed to that mysterious "ever there" it is hoped that all unfriendly thoughts towards the late William Hoag have generously been buried with him and his good traits remembered. Believing that the public has not clearly understood the motives by which the deceased was attracted to his relatives and friends feels it to be their duty to make this statement in justice to his memory.

**FRANK R. SWEENEY ENLISTS  
IN TANK CORPS**

Frank R. Sweeney, the well known electrician, enlisted in the tank corps at the Army recruiting station in Pittsburgh yesterday.

**JOHN MCORMICK IN THE  
MOTOR TRANSPORTATION**

John W. McCormick of Uniontown enlisted in the motor transportation at the recruiting station in Pittsburgh yesterday.

**AGED GOLD SEEKER DIES**

Alexander T. Dougherty, Hopwood, falls Victim of Paralysis.

Stricken with paralysis Monday morning at 5 o'clock, Alexander T. Dougherty, aged 65, died at midnight Wednesday, at his home in Hopwood without regaining consciousness.

Mr. Dougherty had a most interesting history. He was the son of James and Mary Dougherty and was born in Teneva. He was married to Julia Morris of Springhill township, who died eleven months ago. Four of the five children born to that union, Reuben of Hopwood, James of Fairchance, Mrs. Lila White of Pittsburgh, and Mary at home, survive. Mrs. Robert Keegan is the deceased child. One brother, John of Tennessee, also survives.

Enlisting in Uniontown, December 17, 1861, Mr. Dougherty was mustered out in Philadelphia January 29, 1862, and served three years as a member of Battery K, Second Regiment, Pennsylvania Volunteers, under Captain Amzi Miller.

Mr. Dougherty was one of the gold seekers to the West, in 1849. In his early days he visited every state in the Union and had also been in South America and Cuba. He has crossed both the Atlantic and Pacific oceans and had the distinction of building the first coke ovens in the Connellsville region. For four years he was toll gate keeper at Hopwood.

In recent years he had settled down in Hopwood, living a retired life. Ten grandchildren and 14 greatgrandchildren are survivors.

Dr. J. S. Bromley will have charge of the funeral services which will be held Saturday at 1 P.M.

**Grandson Arrives.**

Mr. and Mrs. G. V. Strickler of Vanderbilts have received word of the arrival of a grandson at the home of Mr. and Mrs. Harry Strickler, Uniontown.

**Want Help?**  
Then use our classified column. Results will follow.

**The Effects of Opiates.**

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotics, is well known. Even in the smallest doses, it appears that these opiates cause changes in the development and growth of the cells which are likely to become permanent, causing imbecility, mental perversions, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drapes, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them wilfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

**REV. EVERHART'S  
BODY TO LIE IN  
STATE AT CHURCH**

One Person at a Time Will Be Allowed to Review Remains There Sunday Afternoon

In charge of a soldier escort the body of Rev. William J. Everhart, who died of pneumonia at Camp Taylor, Ky., will arrive in Connellsville tomorrow morning. It will be in state from 1 to 7 o'clock tomorrow at the church where the public may view it. One person at a time will be allowed to enter the church.

Private funeral services will be held in the evening at the home, with Rev. Galbreath of Pittsburg, and Rev. J. L. Proudfit as the speakers. The remains will be taken to Philadelphia for interment.

**WOMAN ADDS \$3,600**

Mrs. Henry Ritenour Helps Out Coal Company Workers \$3,600.

A Saltdick township woman—Mrs. Henry Ritenour, of near Indian Head—has invested \$3,600 in the Fourth Liberty Loan. The subscription was reported by Attorney F. E. Youn in and Bela J. Smith, who yesterday canvassed the Meierhoff Coal company and secured \$8,000. The subscription of Mrs. Ritenour was a part of the amount her husband being a Meierhoff employee. They had previously subscribed \$200.

The Meierhoff employees set out to raise \$25,000. They came through with \$20,000.

**ACTIVE LIFE CUT SHORT**

Little Dot Bozeman Was Head of the Junior Red Cross and Great Knitter.

Jennie Dot Bozeman, who died yesterday at Dunbar, was chairman of the Junior Red Cross organization of that town and a most active knitter for the Red Cross. Since the close of school in May she had completed a scarf, 16 pairs of socks, and a sweater.

Dot was a great favorite among young and old. Her death was due to typhoid fever with which she was stricken about a week ago. The child was a daughter of Mr. and Mrs. V. N. Bozeman. She was only 12 years old.

**ANAEMIA AND POOR BLOOD**

How Mrs. Burnell's Daughter Recovered.

Drewsville, N. H.—"My daughter was anaemic, had poor blood and suffered from indigestion and bilious attacks. As Vinol had built up my son some time ago, I gave it to my daughter—she soon improved in health, and has built her up and restored her health"—Mrs. N. Burnell.

The reason Vinol was so successful in Miss Burnell's case is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, rundown system, make rich red blood and create strength.

P. S.—For rough, scaly skin, try our Saxon Salve. Money back if it fails.—Adv.

Loughrey Drug Co., Connellsville, D. C. Eason, Dunbar, and Druggists everywhere.

**Notice.**

The Maccabees office has been changed from the Maccabees Building to 407 Second National Bank Building—Advt.

Read The Daily Courier every day.

**The Grim Reaper**

ANTONIO GIGLIOTTI.

Antonio Gigliotti, 62 years old, died this morning in his South Pittsburg street residence following an illness of influenza which developed into pneumonia. Death occurred at 8 o'clock. He had been ill just one week today. Funeral services will be held Saturday afternoon at 1 o'clock. Interment in the Hill Grove cemetery. Six other members of the Gigliotti family, including Mrs. Gigliotti and five children are also ill and four children who have been sick are now able to be about the house. Antonio Gigliotti was born in Pratello, Italy, September 19, 1866. He had been in this country for 18 years, spending all of that time in Connellsville. He came here from Brazil, South America. He entered the retail fruit business on his arrival here and conducted a store in South Pittsburg street at the time of his death. He was a member of the Knights of Pythias, the Sons of Italy, Concordia Lodge and the Columbus Italian Fraternal society. In addition to his widow, Mrs. Antonietta Ruman Gigliotti, he is survived by six daughters and three sons. They are Mrs. Angelina Pultis, Youabella, Sarah, Emma, Aurelio and Isabella and Altilio, Amerigo and Venetia.

LOUIS HEURICH.

Louis Heurich, 58 years old, former well known business man of Dunbar, died yesterday afternoon at 12:30 o'clock in Mercy hospital, Pittsburg, where he had been undergoing treatment since in August for a complication of diseases. For 28 years Mr. Heurich was engaged in the meat business at Dunbar. On the death of his wife six years ago he retired. He had been failing in health for two years. Undertaker J. R. Poitz went to Pittsburg for the body which will be brought this evening to the home of his daughter, Mrs. Lou Robbins, 310 South Eighth street, West Side, from which place the funeral will be held, with interment in St. Aloysius Catholic cemetery at Dunbar.

PETER WORTHINGTON.

Peter Worthington, 55 years old, died this morning at the Baltimore House. The body was removed to J. E. Sims' funeral parlors and prepared for burial. He was born in England on March 6, 1853. He was a piano tuner. Deceased was a widower, but leaves a family of grown children in McKeesport. The body will be sent to McKeesport tonight over the Baltimore & Ohio railroad.

MRS. MARY J. KIDDIE.

Mrs. Mary J. Kiddie, 57 years old, mother of J. J. Kiddie, died this morning at the home of the son at 90 Race street. The remains will be sent to McKeesport Sunday, in charge of Undertaker C. C. Mitchell.

PERSONAL MENTION

Mrs. Elizabeth O'Bryan celebrated her 86th birthday at the home of her son, Charles G. O'Bryan, on Fayette street, Uniontown yesterday. An enjoyable family dinner was given in her honor. Miss Mary Kate O'Bryan arrived home Thursday morning from Camp Meade and was present at the dinner as was Mrs. Willis Miller, of Dunbar. Miss O'Bryan will spend a few days at her home before returning to Camp Meade.

The reason Vinol was so successful in Miss Burnell's case is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, rundown system, make rich red blood and create strength.

P. S.—For rough, scaly skin, try our Saxon Salve. Money back if it fails.—Adv.

### HUSBAND WELL MAN DECLares MRS. BEAUMONT

Eric Woman Tells of Recovery of Spouse, After Taking Tonic.

"My husband is now a well man, after twenty years of suffering from the most terrible form of stomach trouble."

"For four months up to about a month ago, he had hardly been able to work. The last eight weeks of that time, he being almost helpless," said Mrs. T. E. Beaumont, of 218 East Fourth Street, Erie, Pa.

"He dictated so after eating that I could not sit his clothes around him and he suffered great pain through the bowels and from his kidneys."

"One day I picked up a paper and saw the advertisement of Tonic. For several days afterwards he watched for the advertisement in which Eric people told of the marvelous recoveries had been made of people who had been taking Tonic."

"Finally, he decided to try a bottle. He took the medicine for a few days in a helpless way, but the third night I was surprised to see him drop off to sleep and when I awoke through the night, he was still lying in the same position and breathing as regularly as a child."

"The next morning when he awakened he was rested, his stomach was clear and he ate a hearty breakfast the first one for many years. He digested this meal without any trouble. His bowel and kidney trouble left him. After he had taken three bottles he was entirely well and is now going to his work happy and determined to get along."

Tonic is now sold in Connellsville exclusively by the Connellsville Co., Beigley's Pharmacy, and F. H. Harrington, where the premier preparations can be had—Adv.

GERMANY DESTINED TO LOSE ABOUT 80 PER CENT OF HER IRON ORE SUPPLY

When Her Army is Driven Out of the Rhine Basin and Alsace-Lorraine is Restored to France.

Approximately 80 per cent of Germany's iron ore deposits lie in the immediate vicinity of Metz, the great German fortress toward which the all-American drive of General Pershing is heading. On all sides it is admitted that Germany's war-making strength will be damaged badly if the Rhine ore basin—wrested from France in the first days of the war—and the ore deposits of Lorraine snatched from France in the Franco-Prussian war—are won back to the French and American forces in the region. This is more than a possibility, it is a certainty of the near future and will be the result of the surrender of Germany to the Allies.

Of the 28,000,000 tons or so of iron ore which Germany mined annually just before the war, only 21,000,000 tons came from the region now figuring in the war disputes. This left only 7,000,000 tons to be produced elsewhere in Germany, and these 7,000,000 tons were by far the lower-grade ores. Outside of the Luxembourg deposits, which with the Loraine area were diverted to the great steel iron and steel center in Westphalia, these are to be second only to the Pittsburgh district, Germany's iron and steel making is carried largely to a district about 50 miles square in Silesia, near the southeastern border of Poland.

This Silesian district contains eight steel works, about 30 blast furnaces and nearly 300 puddling furnaces, iron ore which supplies these

They must be written and sent to carefully prepared during one week. The paper will be used to issue correct information. Letters can be sent to the newspaper office. Do not use the telephone in communicating with the agency. Write all communications must be signed.)

Speech to the Courier  
SCOTTDALE, Oct. 18.—Beginning today the schools of Scottdale will be closed until further notice. The following resolution has been passed by the board of health:

While in view of the precautions that have been taken and in the absence of any alarming increase in the number of cases of influenza, I, through the prevailing opinion of the members of the board of education and the board of health, recommend the wisdom of closing the public schools at once, as public sentiment seems to demand this course, the schools have been closed until further notice.

It was stated yesterday that there was nothing alarming in the condition of the Scottdale cases up to the time of the

knock the "I" out of slate and said by going to Bend their Jubilee Banquet Week Sat. this week.

They are placing on sale 25 complete garments from New York's best Fashion Designers—Suits, Coats, Dresses, Fur, Vests, Sweaters and all kinds of Men's Coats, Dresses and a full line of Home Linen, Drapery and Furnishings. This will assist the most popular.

60% off on all garments in stock owned by the Judge, Dr. Clegg, Bannister, Adele Store, and

other local stores in Pa.—also

ladies.

With the exception of a few

things, the store is now

closed.

Mr. and Mrs. Walter Long, Mrs.

Ida Keppel and daughter, Mrs. Anna

McGinnis, Eliza Eliza turned from

the old place.

ANOTHER CITIZEN  
OF PITTSBURGH  
PRAISES REMEDY

C. Beck on His Birthplace Street Now  
Relishes Experience With  
Ten Herbs

One of the most interesting statements recently made regarding Ten Herbs in Pittsburgh is that of Mr. C. Jackson of 1151 Penn Street a

native of the city.

Howard Williams Recovered.

Howard Williams, son of Mrs. Mary

J. Williams of Scottdale has returned to Edgewood Arsenal Hastings-on-Hudson, N. Y., to resume his duties as research chemist in the gas plant at that place. Mr. Williams spent a five-day furlough with his wife and mother, after having spent several weeks in the United States General Hospital No. 1 in New York City, where he was treated for a severe attack of influenza and pneumonia. Mr. Williams is training for a commission in the gas warfare department and expects to be sent to France in the near future. He was formerly principal of the high school at Ambrose, at one time taught in the Scottdale school.

Clover Club Election.

Blanche Sheddick entertained her club at her Stauffer home Thursday evening. New officers for the year were elected as follows: President, Mrs. Eva Jones, secretary; Miss Jones, treasurer; Anna Wenzel, organizer. Miss Dorcas Cochran, the business meeting a social one was held and refreshments were served.

Clifford Long Dies.

Clifford Long, aged 19 years, son of Edward Long of Albermarle, died of Spanish influenza at Cresco Wednesday afternoon. The body was brought here yesterday morning and was given by Undertaker J. J. Murphy to his home at Albermarle, where private funeral services will be held this afternoon.

Elton Daugherty Wounded.

Word has been received here by Harvey Daugherty that his son, Elton George Daugherty, was wounded, degree undetermined, on August 5. Before he left with the other draftees from this place some time ago he was employed at the First National Bank.

Mrs. Fischer Gets Her Wage.

Mrs. Cora Fischer received a telegram on Wednesday evening stating that her son Emerson L. Fisher had been wounded July 29 degree undetermined. Mrs. Fischer received a letter from Emerson dated August 17, informing her of being wounded and also that by the time she would receive the letter that he would be out of the hospital.

Walter Bodenheimer Also.

A telegram has been received here from Private Chester Bodenheimer of Company E, 110th Infantry, who was wounded July 29, degree undetermined.

Daughter Born.

Born to Mr. and Mrs. J. A. Jackson on Friday a girl, their first born street house person.

Pass \$7.00 Mail.

The Scottdale high school had last evening gone over the \$7,000 mark in the sale of Liberty Bonds.

Youngest "Avalynne"

D. R. Barr, son of C. I. Barr of Albermarle, is leaving tonight for Columbus, New Mexico, having been home on a furlough. He belongs to the 16th Cavalry and is said to be the youngest cavalryman of the border.

Knock the "I" out of slate,  
For your boy and girl, you will  
be satisfied with anything short of Scott's.

C. JACKSON

well known business man who has been a resident of that city for many years. He stated:

I have been troubled with my stomach for the past few years. It was bloated with gas, and had indigestion, so bad that I could not keep the lightest kind of food in my stomach. I was very nervous and could not sleep at night. My liver was sluggish and my kidneys were also affected. I had taken many different medicines without any benefit whatever and it was only when I started to take your Ten Herbs that I got relief. I can now honestly say that I have no more trouble with indigestion, sleep well at night, and have no trouble with my liver or kidneys. I feel better in every way.

Ten Herbs is a scientific blending of the essence of certain roots, herbs, berries and flowers which have been known to medical science from time immemorial for their curative and healing properties in cases of stomach, liver and kidney diseases. Only the proportions of each and the modern method of blending are secret.

Ten Herbs is sold in Connellsville at the Connellsville Drug Co. Store.

**PENNSYLVANIA MINERS**

Will Re-open the Mines Wrecked at Lens by the Germans.

Miners from the Pennsylvania Anthracite fields will help in reopening the collieries in Lens now in the hands of the allies.

Former hard coal diggers with Pennsylvania forces have been organized into a special unit for this purpose. Telegrams from the western front say that the Germans, before abandoning Lens flooded the mines and otherwise damaged them but it is believed that experienced men from America will soon be able to re-start the operations.

In brave workers make a special effort of reopening flooded chambers.

F. C. DOESCHNER

Pittsburg's Largest Exclusive Furnisher (Miss L. Mellingen in Charge)

Will display a complete and most attractive selection of their well known Best Value Furs at the Smith House October 21st, 22nd and 23rd.

This exceptional showing of the newest creation in Full Coats, Capes, Caps, Sole, Set, etc., surely should meet the visits of all our loving ones of this town. Miss Mellingen also recommends a tentation of re-opening the work room.

The Pittsburg Daily News

in Europe of which is available in Pittsburg, we are told, in Pennsylvania, which is as sure as the truth itself.

There is a report that the German government between 18 and 1912 in the hope of obliterating a sufficient supply of water for Persia. The depth is 1,000 feet, at which level a prolific supply of water was reached.

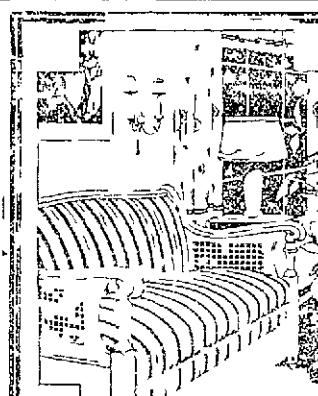

**SCHOOL-DAY STRAIN**

A parent troubled over a child or a fast-growing youth, could do no better than to utilize the definite help that

**SCOTT'S EMULSION**

affords as a strengthening and nourishing factor. A very little of Scott's every day, during a time of stress, furnishes elements of nourishment essential to the blood and tends to confirm a growing child in robustness. For your boy or girl, you will not be satisfied with anything short of Scott's.

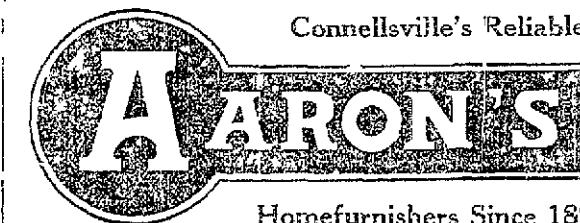

Scott & Sons' Emulsion

**Special Sale for One Week Only!**

**Kodavas, Duofold Suites  
and Davenports**

Starts tomorrow and continues all next week!

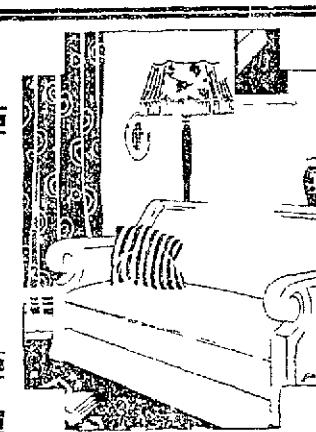

Connellsville's Reliable

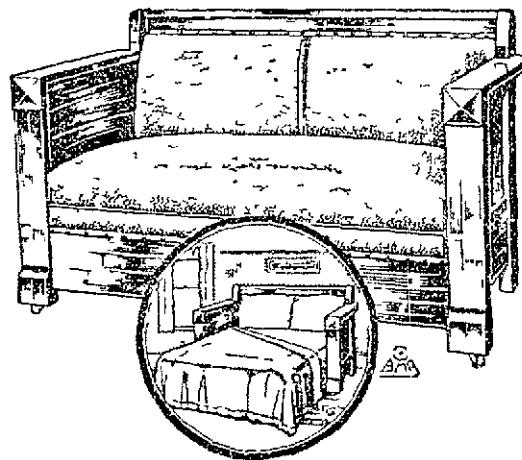

**AVRON'S**

Homefurnishers Since 1891.

We want to call your special attention to the unusual values offered this week—a few of which are illustrated below. In the face of rising costs we are placing in this Sale Davenports and Davenport Suites that could hardly be duplicated at these sale prices.

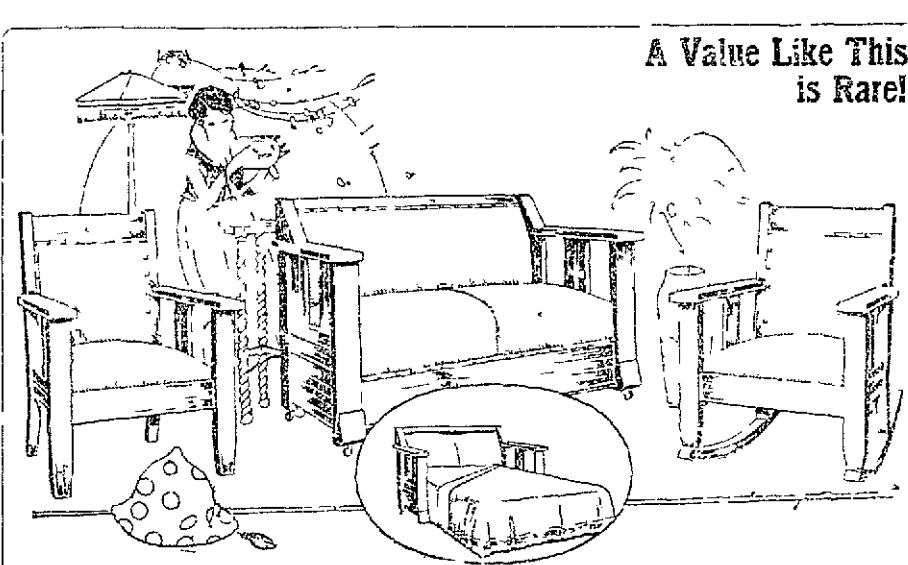

**Here is a REAL Davenport Value!**

This Sturdily Built Solid Oak Bed Davenport . . . . . \$42.50

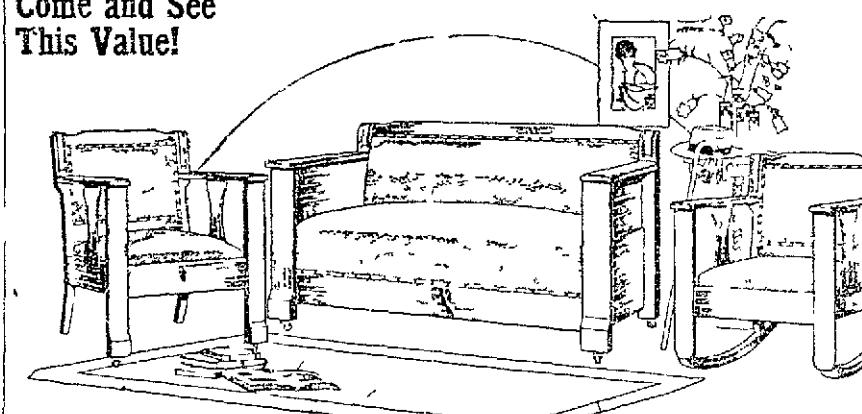

Here is a Davenport that will give years of service. The spring construction is the same as that found in the more expensive Davenports—upholstered in the best grade of imitation leather that is guaranteed not to crack or peel. Finished in a beautiful golden oak.

This Solid Oak Complete Three-Piece Living Room Suite. Sale Price . . . . . \$69.75

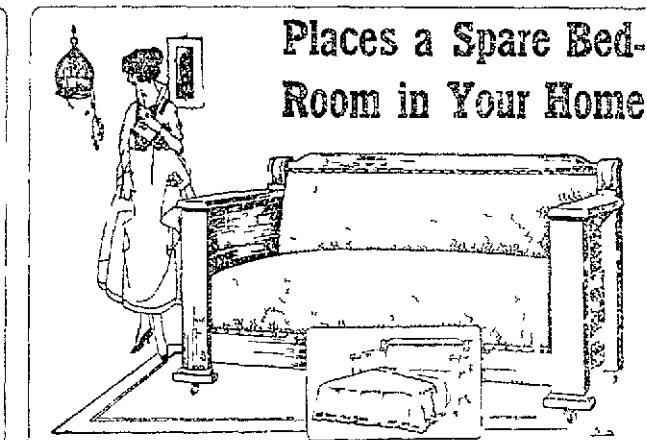

A whole room full of furniture for the price you ordinarily pay for a single piece. Both the chair and rocker have coil spring construction making them very comfortable. The Today one is into a full size bed with a single motion. Upholstering is done in the finest grade of imitation leather. Finished in golden oak.

**Come and See This Value!**

This Strongly Built Complete Three-Piece Living Room Suite. Sale Price . . . . . \$89.50

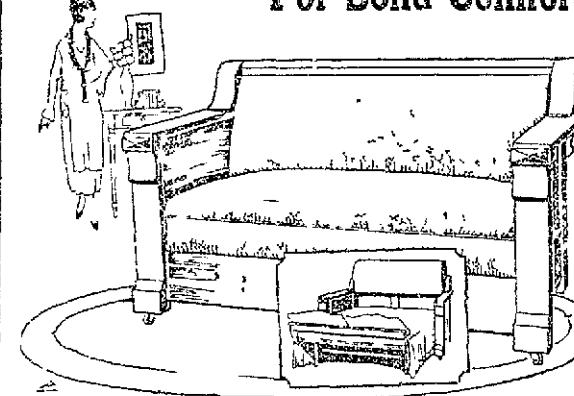

There's a world of comfort in this living room suite. The Davenport has sprung back and spring seat construction which insures comfort—you don't get that sitting on a board effect usually found in the ordinary make of Davenports. At this sale price it's a value that cannot be duplicated anywhere. You have the choice of either genuine quarter-sawn oak or brown mahogany.

This Massively Constructed Bed Davenport. Sale Price . . . . . \$59.00

Provide accommodations for the additional guest without the expense of purchasing another piece of furniture. It consists of a double bed, a chair and a small table. All articles are of serviceable quality and are easily cleaned and washed. Your choice of either genuine quarter-sawn oak or warm brown mahogany.

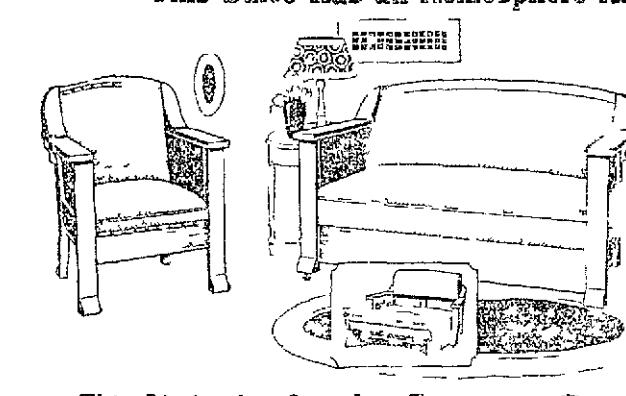

**For Solid Comfort!**

This Comfort-giving Bed Davenport. Sale Price . . . . . \$79.00

In this Davenport you have a piece of furniture that will be a most welcome addition to your living room. The construction is of the very best and the materials are of the finest quality—insuring complete satisfaction at all times. Comes in genuine quarter-sawn oak and brown mahogany.

**This Suite Has an Atmosphere All Its Own**

This Distinctive Complete Three-Piece Living Room Suite. Sale Price . . . . . \$109.50

For dignity, luxury and real comfort this suite offers more than you would ordinarily expect at such a reasonable price. The Davenport is a high-backed unit that opens into a full size comfortable sofa-type resting bed. The Rocker and Chair are unusually comfortable. In construction and workmanship it is unequalled. Completely upholstered in genuine quarter-sawn oak and brown mahogany.

**SHALL WE FAIL? IT IS FOR YOU TO ANSWER**

With Hungary declaring its independence of Austria and the hour of revolution in Germany approaching with relentless certainty, the Hohenzollern and Hapsburg dynasties are tottering to their final crushing fall.

We cannot stand idly by, merely as interested spectators in this great epoch of human history, and say, "Let them tumble." We must add our dash as to make the crash certain and complete. A knockout blow must yet be delivered because it is only by force that Germany can be made to realize that her unshakable ambition for world dominance cannot be realized.

The instrument for dealing that blow is the Army under General Pershing which must be so equipped with men, material, munitions and supplies as will make it possible to continue its onward and irresistible sweep toward Berlin. These things cannot be supplied without money and the government cannot obtain the money without your help.

As Secretary McAdoo pointedly observes, "We shall fail in everything we have fought for or hope to gain in the war if the Fourth Liberty Loan is defeated." Shall we at the very hour of triumph by our brave, self-sacrificing soldiers who are now driving the Hun on his last disastrous retreat fail short of our duty to them?

It is up to you to make answer Let that be a thunderous "No," expressed in terms of dollars your bone subscription represents.

**THE LAST FULL MEASURE.**

Not since the death of Capt. S. S. Morton of Company D, has the regret of the community at the untimely death of a citizen been more generally or more sincerely expressed than since the arrival of the sad news that Rev. W. J. Everhart had fallen victim of pneumonia at the Army Chaplain's Training Camp.

These expressions, which are heard in every home, not only evidence the esteem in which Rev. Everhart was held as a Christian gentleman and citizen, but they are proof of the admiration that has been felt for him in having voluntarily surrendered a pleasant task, amid congenial surroundings and in a land enjoying the blessings of peace, to prepare for the arduous duties of spiritual guardian, guide and friend of the soldiers in the camps and on battlefields in the war zones. The fact that Rev. Everhart was the first minister of Connellsville to actively take up preparation for service as an army chaplain, was the source of a certain community interest and pride, which had been more deeply felt that it had been outwardly manifested, just as there has been interest and pride in every young man of the city who has answered his country's call in these stern days.

As a minister of the gospel and an ardent supporter of every cause designed to make Connellsville a better and happier place in which to live, Rev. Everhart had enjoyed in a supreme degree the confidence of those with whom he labored, as pastor of one of the city's churches, he sustained relations which bound him to his congregation, a tie that can be forged only by loving, sympathetic service. It was as a soldier that the public, outside of his congregation, immediate friends and co-workers, was drawn to Rev. Everhart perhaps more closely than in his capacity as a pastor and citizen. Of his own free choice he selected that branch of service which his life's training best qualified him to fill, aware of the sacrifice that might be involved, but appreciating the splendid opportunities a chaplaincy offers for a real servant of the Master to come into comprehending touch with the souls of men who every moment stand ready to die for their country.

In preparation for this service Rev. Everhart became afflicted with that malady which is proving so swiftly fatal to thousands throughout the land, particularly those who like himself are in training for duty as soldiers. No particulars are available of his last hours, in new and strange surroundings and without the comforting companionship and presence of those who were near and dear to him, but all who knew Rev. Everhart will bear testimony that both as a soldier of the Cross and a soldier of his country, he died the end with the same calm courage that the boys have faced it in the treacherous fields of France and Flanders.

He like they, made the sacrifice that is "the last full measure of devotion."

Would it not be a strange but righteous retribution if Germany has an outbreak of Bolshevikism of the kind fostered in Russia?

With Admiral Tirpitz, father of the submarine ruthlessness campaign, *richter* is support to Prince Max-Jacob, the new German chancellor, we have further proof of the unchanged nature of "the German government" which Prince Max says was "formed by conference."

The war is not over and its delay is being put over until the fault of the reputation of good citizens to help put the Fourth Liberty Loan over.

Teddy says that "we will get peace with the machine gun and not with the typewriter." General Pershing's method of war seems she isn't going to be consulted. Her heart will be blighted to saying, "Yes, sir." Remember though that machine guns cost vastly more than typewriters. Buy more bonds so that Pershing can get more of the peace talkers.

Give no credence to the reports that the Huns have been ordered to continue vandalism on land and to bring the hounds home until we know that these things have been done. It is no easier for the Hun to change his nature than the leopard his spots.

The plucky little Belgian army is showing the Huns the nearest and quickest way home.

**An Important State Campaign**

While all parties and all interests are united in efforts to win, it would be unfortunate for the people of Pennsylvania to treat with indifference the fact that the obligation is upon them to elect a governor and other officials who will direct their state affairs for years, together with thirty-six congressmen, all of whose tenure may extend beyond the war.

The war cannot last forever; the business of the state and nation must go on indefinitely. The war itself has confronted with new conditions. We successfully met them the principles and policies of the Republican party are still applicable and adequate.

What will be required is the enforcement of those policies by an alert business administration, and such an administration will be assured by the election of the Republican state nominees and a legislature in full party harmony.

Let the people set their duty. While responsive to war emergencies and exactions we cannot ignore the demands of the state. We must continue to broaden and extend the fostering care we have given our public schools; we must continue the improvement of the highways of the state now systematically planned; we must further aid and encourage the farmers; we must provide every means of safety for those who work in the mines; the health of the people of the state must be safeguarded in every way; the natural resources rationally and usefully developed, and legitimate local and individual enterprise promoted for the welfare of the commonwealth.

Initiated as these undertakings have been, and so far successfully carried forward by the Republican party, the work can be competently maintained and extended by a fit publican state administration only. That party which has always kept up with the progress and demands of the day has put itself more strongly than ever in the front line of advancement. No one so well equipped as Senator William C. Sprout, the party candidate for governor, to discharge the responsible duties of the executive office, has been nominated by either party in half a century. His nearly twenty-five years' service in the state senate has given him an intimate and thorough knowledge of the commonwealth's affairs, and of the aspirations and requirements of the people, which will be a priceless asset in the administration.

Senator Sprout has been successful as a legislator and citizen by the prompt and intelligent discharge of every duty and obligation imposed upon him. As an executive in the highest office in the state, he will measure up to the highest ideals of efficiency.

His record and character, both private and public, are a sufficient guarantee to the people. In electing Senator Sprout to the governorship the people of Pennsylvania will honor him. It should be his pride not only to elect him, but to give him a vote as nearly unanimous as possible.

Administrator's Notice.

F. E. Founkin, Attorney.

ESTATE OF ADELBERT ALPHONSE Wetherell, deceased. Letters of administration on the estate of Adelbert Alphonse Wetherell, late of the City of Connellsville, Pa., were issued to his next-of-kin, deceased, having been filed in the undersigned, notice is hereby given to all persons indebted to said estate to make immediate payment and to those having claims against the estate to present them properly authenticated, for settlement, to YVONNE D. WETHERELL, Administrator, Connellsville, Pa. 27oet-ff

Ordinance.

Notice is hereby given that the following ordinance has been introduced by the Council of the City of Connellsville, and will be voted upon at a meeting held on the 11th day of November, 1918.

An ordinance to prohibit loafing and loitering in the city of Connellsville, Pennsylvania.

Be it enacted by the Council of the City of Connellsville, and it is hereby enacted by the authority contained in Section 1. That from and after the enactment of this ordinance it shall be unlawful for any person or persons to loiter or loaf in or upon the streets of this city, or to be without employment.

Section 2. Any able bodied male person between the ages of nineteen (19) and thirty (30) years inclusive, shall be habitually and regularly engaged in some lawful useful and recognized business, profession, occupation, trade or employment, and shall work or be engaged at their said business, profession, occupation, trade or employment at least thirty-six (36) hours in each and every week.

Section 3. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 4. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 5. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 6. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 7. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 8. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 9. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 10. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 11. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 12. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

Section 13. Any person violating any of the provisions of this Ordinance shall, upon conviction, pay a fine or penalty of Ten (\$10.00) Dollars, or in default thereof shall be sentenced to imprisonment in the county jail for a period not exceeding ten (10) days.

**MEN FOR WAR WORK  
TO COME FROM LESS  
ESSENTIAL PLANTS**

Will Be Stripped If Necessary  
to Provide an Adequate Force.

**CHANGE OF EMPLOYMENT**

Not Change or Location is the Plan the  
Details or Method or Operation of  
Which Have Not Yet Been Worked  
Out; Will Not Interfere With Draft.

\* WASHINGTON Oct 16—Every industry not essential is essential to the conduct of the war or to supplying the needs of the civilian population will soon be stripped of the men in their employ to supply the ever increasing demands of the war industries under plans now being prepared by the War Industries Board.

No hint was given by Mr Baruch or the methods under consideration for accomplishing this end except that the success of the plan would necessarily depend upon the full cooperation of the men now employed in the less essential industries.

It is the intention of the War Industries Board Mr Baruch said to cause as little disturbance as possible of the present distribution of labor so far as asking the men to leave their present homes for new localities is concerned. The efforts of the board will be directed towards obtaining employment for them in the vicinity in which they are now located before changes contemplated being one of employment and not of location. This, it is realized, will not be possible in all cases, but it is expected that when the needs of the nation for their services in speeding up the war industries is fully explained to and understood by them there will be full compliance with the requests of the government.

Manufacturers it appears according to Chairman Baruch whose commodities are undoubtedly in the class of "less essential," have failed to grasp the significance of the numerous conferences between other manufacturers and government officials which have been followed invariably by announcements of curtailments of raw materials or of fuel. These manufacturers have appeared to believe that their particular industry would be exempt from the general program of conservation which the government has been conducting in the effort to have the output of the factories keep pace with the output of the shipyards, the military camps, and the naval training stations.

Mr Baruch made plain that "business as usual" is a dream of the impractical and has no place or part in the plans of the War Industries Board. "The only business of this country today is war and the winning of the war," said Mr Baruch.

There will be no effort on the part of the War Industries Board to interfere with the operations of the selective service law but Mr Baruch disclosed the since along while the plans of that board will be worked out in its efforts to obtain men when he called attention to the fact that there are said to be 250,000 men in the country who are now employed as traveling salesmen. He also referred to the thousands who are still spine of the work or fight' order of the Provost Marshal General.

It is thoroughly understood that practically none of the men between the ages of 21 and 31 who are physically fit for general military service and have no dependents have been overlooked by the Provost Marshal General. There is little doubt, however, that the War Industries Board intends to take whatever steps are found necessary to supply the needs of the essential war industries of the nation from the ranks of those men who, having been given deferred classification because of dependents have remained in their original occupations in spite of the fact that in many instances such occupations are well known to be not essential to the active conduct of the war.

**Get Rid of That Persistent Cough**

## FURNACEMEN HOPE FOR STILL MORE IMPROVEMENT IN COKE

Quality is Slightly Better But Not up to Standard, is the Claim.

### ANXIOUS ABOUT WINTER

Little Opportunity Offers to Lay in Stocks Against the Possible Interruptions to Traffic; Market Conditions Very Quiet; Offerings Rare.

**Special to The Weekly Courier**  
PITTSBURG, Oct. 18.—Pig iron production in the United States is being marketed transacted and even consigned to be runnning at a rate of 42,000,000 gross tons a year, find difficulty in securing allocations at the present time. The rate in September was a trifle under 42,000,000 tons a year, and broke the record of their October, 1916, a rate that was hardly closely approached at any time in 1917. From April to August, inclusive, this year, the rate lowered between 40,000,000 and 41,000,000 tons a year.

The increased rate of pig iron production now witnessed is ascribed chiefly to improvement in weather conditions, but a portion of the credit is given to improvement in the quality of coke. Few furnacemen report more than a barely noticeable improvement in coke quality, however, and the great majority testify to there being much room left for improvement. They are quite willing to recognize that the coal miners have as much to do with coke quality as have the operators, but hopes are entertained that the continued efforts of the Fuel Administration will bear fruit from time to time in steadily improving the quality of coke. It is not maintained that all coke is inferior in quality to that which was furnished in 1916, and with which the blast furnaces made such a remarkable record, but it is held that the poorness of quality is rather widespread.

As far as improvement in weather conditions has resulted in heavier production of pig iron, but little if any increase in the quantity of coke consumed has occurred. The influence of improving weather has been in the direction of there being less humidity in the atmosphere, and this humidity operates to consume coke, so much less being effective in reducing the ore.

As winter approaches the furnacemen become more restive over the fact that the supply of coke, while approximately sufficient to take care of furnace operations from day to day, does not afford opportunity for laying in any stocks. Almost every furnaceman would be glad to stock a considerable tonnage of coke against interruptions or traffic this winter.

The situation in this respect is certainly not given a brighter aspect by the official statement of Chairman Baruch of the War Industries Board last week. Mr. Baruch paid a warm compliment to Director General of Railroads McAdoo for the willingness with which the director general renounced claims to large quantities of steel that had been allotted to the Railroad Administration and allowed the steel to be diverted to filling General Pershing's increased requirements. Mr. McAdoo promptly said "Pershing first," but Mr. Baruch expressed his fear that by reason of the diversion of this steel there would be traffic difficulties this winter, and he wanted to absolve the Railroad Administration from responsibility. That the statement of the War Industries Board chairman was quite timely is indicated by uninformed criticism in some of the weeklies to the effect that the Railroad Administration has been tax not calling for more steel.

The coke market continues very quiet as substantially all the production is going out on contract or under allocations of the Fuel Administration. A very moderate volume of foundry coke is offered from time to time, generally on two or three days in the week, all offerings being promptly taken. Offerings of furnace coke continue extremely rare. The market remains quoable at the set limits, as follows:

This corporal is signaling by means of an electrical daylight signal lamp.

### A REMARKABLE

#### NEW PAIN KILLER

Wonderful 20th Century Liniment Stop Rheumatism and All Other Pains Swiftly and Speedily.

Those sharp, agonizing twinges are almost instantly relieved by the remarkable new pain killer and rheumatic remedy, 20th Century Liniment. Just rub it on—that's all. Acts like magic. No hot water bath needed. You simply apply it direct from the bottle.

Its positive, quick action in all cases of Rheumatism, Lumbago, Neuralgia, Backache, etc., prove 20th Century Liniment to be the sworn enemy of all pain.

Take a bottle home tonight. There's no need to curse pain when you can get quick relief at the nearest drug store. The Concordia Drug Co. can supply you—Adv.

#### Ruthenians.

Ruthenian is the name given to Christian inhabitants of what was formerly known as "Little Russia," living in what is eastern Austria, and also in southeastern Poland. They use the ancient Greek liturgy translated into the old Slavonic tongue, though Roman Catholics professing obedience to the See of Rome. They have a married secular clergy, following what is known as the use of St. Basil. It should, however, be noted that the name is sometimes loosely applied in Canada to several Russian sects living in the West.

PETEY DINK—Pete'll Be Safe If He Can Beat the Sneeze

### DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and to feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very veins which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, are those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs.—Adv.

Testing Pleurisy With Coins.

A novel method of diagnosing pleurisy is described by P. Lebecque in the Paris Medical. The examiner applies his ear to the patient's chest, closing his other ear, while coins are clinked at the patient's back. The sound of the coins coming through a healthy, normally aerated lung seems distant and dull, while through an affected lung, through solid or homogeneous tissue a clear, silvery, metallic ring is heard.

Truly King of Birds.

"Our national bird, the bald eagle, wild in its native haunts, is so large, so majestic, and flies with an evidence of so enormous strength, that one is impressed with the thought that here is the king of birds," writes T. Gilbert Pearson of the Audubon society. "On one occasion while eating my lunch in the shade of a little bush on a Southern prairie, I saw one carry off a lamb."

This exceptional showing of the newest creations in Fur Coats, Coasters, Caps, Stoles, Sets, etc., surely should merit the visits of all loving ladies of this town. Miss Mellinger assures you special attention on remodeling work.—Adv.

### A personal offer to those who fear Spanish Influenza

MANY doctors are urging the use of a soothing antiseptic like Kondon's for inside the nose and head.

I want to make it easy for folks to get this relief.

HEREFORE, I hereby authorize any druggist to let you have a 30c tube of "Kondon's" on the understanding that if you don't think it is worth many times that to you, you may return your tube to the druggist and get your money back—the druggist to collect said refund from me.

(Signed) Thomas N. Kenyon, Owner

MINNEAPOLIS, MINNESOTA.

### STEEL INDUSTRY NOT PAYING ANY ATTENTION TO PEACE DISCUSSIONS

Going Ahead on Plans Which Contemplate a War of Several Years' Duration; No Relaxation.

Special to The Weekly Courier.  
NEW YORK, Oct. 18.—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows:

The steel industry, as an industry is paying absolutely no attention to the so-called peace negotiations. Steel producers and consumers are interested in diplomatic developments only as private citizens. The production and distribution of steel is controlled by the War Industries Board, which planned for a war of several years and is carrying out its program with no reference to diplomatic developments. The appraisal of the importance of these diplomatic developments is difficult enough for those who have charge of the diplomacy of the war. The War Industries Board is prosecuting the war from the material side, and the steel industry takes its cues exclusively from the board.

Even with the more favorable steel production statistics that came out last week the situation is confronted with a real deficit of not less than 3,000,000 net tons of finished rolled steel for the half year. Production in the last quarter was about 9,500,000 tons, and may slightly exceed 10,000,000 tons this quarter, but the War Industries Board's estimate stands that the half year's requirements are not under 23,000,000 tons. Supplies for direct war use will not be cut a particle, while the factor of safety in connection with various indirect war activities will be reduced, and supplies for even the most important and helpful civilian uses will be very light indeed for the remainder of the year.

Some rearrangements are being made in the allocation of orders for ship plates, but the total flow is to remain at about 50,000 net tons a week. Production of wire is being reduced further, to provide for the manufacture of more shell steel, while the war requirements in wire have increased and supplies for civilian use thus undergo a double curtailment.

Shipments of wire products to jobbers will be very light in the next three months and shipments of jobbers of tubular goods will be on a decreasing scale.

P. C. DOESCHNER

Pittsburg's Largest Exclusive Furrier  
(Miss E. Mellinger in Charge)

Will display a complete and most attractive selection of their well-known "Best Value Furs" at the Smith House, October 21st, 22nd and 23rd.

This exceptional showing of the newest creations in Fur Coats, Coasters, Caps, Stoles, Sets, etc., surely should merit the visits of all loving ladies of this town. Miss Mellinger assures you special attention on remodeling work.—Adv.

## Fuel For This Tank!

## FORMER MERCHANT OF MT. PLEASANT IS INFLUENZA VICTIM

Charles Strickler Succumbs to Disease in Pittsburgh Hospital.

## MORE CASUALTY MESSAGES COME

Several Members of Company E Are Reported to Have Been Wounded in Action, the Degree Not Having Been Determined by the War Department.

**Special to The Courier**  
MOUNT PLEASANT, Oct. 18.—Charles Strickler, who for many years was engaged in business in Main Street at the Diamond, with his father, the late Alex Strickler, died yesterday morning in a Pittsburgh hospital from Spanish influenza with which he was stricken a few days ago. Mr. Strickler, who had for a number of years been employed as a clerk at Horner's store, Pittsburgh, was found unconscious in his room on Sunday morning and was removed at once to a hospital. He did not rally. The body was brought here yesterday by Underaker M. A. K., and removed to the J. A. Stevenson home. Mr. Strickler was one of the best known men of the town. Before going to Pittsburgh he was for many years a member of the choir of the Re-Union Presbyterian Church. He was the last member of the family. Following the death of his father about 10 years ago he settled up the estate. The father's financial affairs were such that it was said, that everything was required to cover the indebtedness.

## Frank Rosky Wounded.

William Rosky, who lives at the Standard shaft, yesterday received a telegram stating that his son Frank Rosky, a member of Company E 110th Infantry, had been wounded, degree undetermined July 29. He formerly was a pitcher on the Standard team of the H. C. F.ick baseball league. Not Missing. Wounded.

Mrs. Joseph Spirk yesterday received a telegram that her son, Private William Rosky, who had been previously reported missing in action since August 28, is now reported slightly wounded in action September 4. Spirk was a member of Company E, 110th.

## Arthur Crusan Wounded.

Mrs. Mary Crusan yesterday received a telegram that her husband, Arthur B. Crusan had been wounded, degree undetermined July 29.

## To Camp Greenleaf.

Arthur Crusan had been wounded, and Charles Meiggs left last evening for Connellsville on their way to Camp Greene Charlotte, N.C. Orders were received yesterday for 18 men to be sent to Camp Greenleaf Thursday October 24, on the West Penn car leaving Mount Pleasant at 4 o'clock. The train leaves Connellsville at 6:20.

**"ONLY LOST AN ARM AND AN EYE; SHAME I CAN'T GO BACK TO THE BOYS!"**

Is the Way Abe Fleischer, a Wosnawod American Soldier,

**AN ATLANTIC PORT** Oct. 6.—(By Mail)—Abe Fleischer's spirit goes marching on. It took Appenzon Wood and encumbered at Chateau Thierry and marched through to victory at St. Mihiel. It is the spirit that animates Catholic and Protestant. In the forced to use is reflected in the movement which leading producers have undertaken to raise the sulphur limits!

"Having suffered from nervous indigestion for several years, I find after using Dr. Caldwell's Syrup Pepsin that I am as well as I ever was and can now eat anything without fear of consequences." (From a letter to Dr. Caldwell written by Mrs. John K. Moore, 516 No. 27th St., Richmond, Va.).

Indigestion and constipation are conditions closely related and the cause of much suffering. Dr. Caldwell's Syrup Pepsin is a mild, pleasantly effective laxative; it quickly relieves the intestinal congestion that retards digestion and has been the standard household remedy in countless homes for many years.

Connellsville Pennsylvania

Gentlemen:

I am directed by the Secretary to acknowledge receipt of your letter of October 8th and to express to you his appreciation for the excellent letter which you are sending to all of the depositors in your Christmas Savings Club urging them to invest their savings in Fourth Liberty Loan Bonds. I am sure that this will be helpful to the campaign.

Yours for the Fourth Liberty Loan

L B FRANKLIN Director

## CHRISTMAS SAVERS

Let's make it 100 Let every Christmas saver join the ranks of the Christmas Savings Bond Club Act at once

Yough Trust Company  
OF CONNELLSVILLE

Connellsville Pa. Sept 19 1918

Dear Friend —

The Christmas Season is approaching when we will mail to you and some 3000 others checks representing the savings of the past year in the Christmas fund. Heretofore these checks have provided Christmases for many and you have gladdened the hearts of many of your friends by your gifts at Christmas. This year things are different and we must look at them in a different light. We are allied in the great world war on the side of righteousness and we must do our utmost to break the spirit and power of the Hun.

Over a million and a half of our boys are in France now (200,000 went over last month) and probably two millions and a half more men will be sent over before this time next year. Our Government needs money to provide for this splendid army which has been organized and trained and we you and I must help to provide this money out of our savings. So it is up to us to save, save and invest in the bonds or securities which are offered from time to time by our Government.

Our boys over there have done splendid work and have the Hun on the run and they will keep them running if we at home back them up in the proper manner. Twenty billions of dollars will be needed by our Government this year to provide food and clothing for our army at the front and in training in the cantonments.

In order that we may do our part I suggest that you authorize us to enter your subscription to the FOURTH LIBERTY LOAN and to apply your savings in the Christmas Fund in payment of part of your investment.

The drive for the Fourth Liberty Loan will start September 28th and Connellsville wants to go. Over the top in this as it has done in all former drives. You will want to help in this and I know of no better way than applying your savings in the Christmas Fund as I have suggested above.

I enclose you a subscription card which we would like you to sign indicating hereon the number of bonds you will purchase and return the card to us at once.

We are going to win this war. If we stand up shoulder to shoulder at home and back up our boys at the front who are standing up shoulder to shoulder peace will come much sooner than we could think and do not give our best efforts to the support of our Government.

Very truly

E R PLATO Treasurer

Hon E R Fancher Governor of the Federal Reserve Bank of Cleveland commends this plan

Federal Reserve Bank  
OF CLEVELAND

October 10 1918

Mr E R PLATO Treasurer  
Yough Trust Company  
Connellsville Pa

Dear Sir —

I have had pleasure in reading your circular letter sent to the depositors in your Christmas Savings Club under date of September 19. I most heartily congratulate you both on the idea and the form of its presentation. It certainly should appeal to our patriotic Christmas savers and no other Christmas gift could quite produce for the giver satisfaction equal to that which should follow the investment you suggest. I sincerely hope your letter will meet with the response it deserves.

Very truly yours

E R FANCHER Governor

## BASEBALL IS QUITE POPULAR IN FRANCE

Soldiers Turn to Game Just as Soon as There is a Lull.

Day is Started While Enemy Shells are Shrieking Overhead—War is Entirely Forgotten Among American Boys.

(By E A Batchelor) "Early morning the Germans had held this position. Sunday afternoon American artillerymen were playing ball there. Thus the Yankee national game follows the flag.

It might seem strange that soldiers after days and nights of battle hours of fatigue and danger should turn to baseball the very first moment there came a lull, but this has been the rule rather than the exception all summer in France.

Sometimes the play starts while an occasional enemy shell is still shrieking overhead, though the officers do not encourage that sort of reckless exposure to danger.

The explanation for the soldier's love of play at the extreme front is that his nervous system has been so upset that he needs action. He cannot go from the excitement of battle to the calm of complete repose all at once. He must let himself down gradually just as men who have been working in compressed air must go through the air lock before it is safe for them to breathe the atmosphere at its normal pressure.

Baseball serves the purpose admirably. It gives them something to do with their bodies while nature is adjusting itself and something to think about that will enable them to forget the horrors they have just passed through. It is both a physical and mental tonic.

In the particular case mentioned above a group of artillerymen were firing two big "160" rifles placed beside a road. The two pieces served with the regularity of clock-work by a part of the battery, were harassing the retreating Huns. The men not actually engaged in shooting sat and lay around with nothing to do but think. They were too tired and excited after the advance to sleep.

A Y M C A van came along the road and one of the men in it called out to ask whether an indoor baseball could be used there.

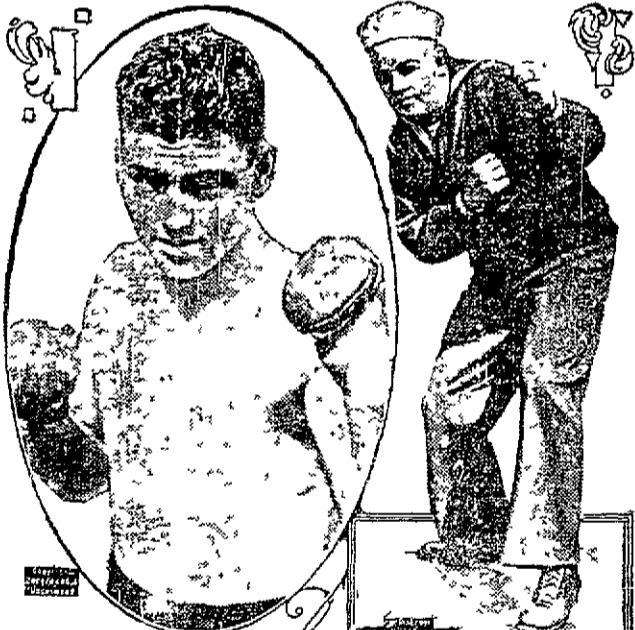

With one voice the artillerymen answered "yes." The "I" man threw out a new ball and one of the soldiers caught it.

"First batter!" he yelled. "Second batter" yelled another.

"Pitcher" snarled a third. And so on until all the desirable places were claimed.

A pick handle answered for a bat in a minute the game was in progress. The batter stood between two guns and the fielders were spread out in front so that they got the full force of the gun fire.

## WILLIE MEEHAN, BLUEJACKET, IS ONE OF NOVEL FREAKS OF MODERN FIGHTERS

Jack Dempsey

Willie Meehan who surprised the boxing world when he beat Jack Dempsey decisively in a four-round bout at Fresno, is one of the freaks of the ring.

Six years ago Meehan boxed as a bantamweight on the Pacific coast, and since that time he graduated into the featherweight class. Today Meehan is meeting the heavyweights as fast as they come his way and he tops the beam around 190 pounds.

Despite the fact that Meehan never possessed a knockout punch he has succeeded in making a reputation as a boxer. To see Meehan in action without looking at his face would remind old timers of Mike Schreck when the Coney middleweight was in his prime. Meehan was never considered a

fighter. They paid no more attention to the ear-splitting crack of the gongs than to the buzzing of the flies around the mess tent. War was forgotten and they were just American boys at play, instead of men engaged in the business of slaving.

An officer saw the game and smiled. He knew that the morale of that battery would go far over par as a result of the play. It was just the thing that they needed but he feared that some of the men in the field might suffer harm from hating the guns fired right over their heads and ordered the men of the battery to stop the game.

But the minute the men are able to think of playing the Red Indians is there to look after them. As soon as

a unit is brought back to rest after a few days of hard fighting the "Y" begins to put on an athletic program. Officers heartily endorse the work and several unit commanders have made formal requests for physical directors in their rest billets.

The results have been most gratifying. Units that have come out of the lines badly used up have been able to get in shape in a few days and the men have gone back to the best news of killing the Boche with renewed vigor.

Units that have come out of the lines badly used up have been able to get in shape in a few days and the men have gone back to the best news of killing the Boche with renewed vigor.

TRYING TO GET IN SERVICE

Umpire Bill Byron is after place in Aviation Corps—Ago keeps him on outside.

While many of the noted baseball stars are trying their hardest to stay out of the service Umpire Bill Byron who is forty seven years old is trying

to get in.

Umpire Bill Byron

## AMERICAN ARTILLERY IN ACTION BEFORE METZ

Ever since the closing out of the St. Mihiel salient the fortifications of Metz have been under the fire of the American artillery.

NEW RECORDS  
for your  
TALKING MACHINECOAL PRODUCTION FOR  
WEEK OF OCTOBER 5  
HELD UP DESPITE "FLU"

Decrease Was 3.6 Per Cent But Total Was Well Beyond the £2,000,000 Ton Mark; Greater Than 1917.

Despite the rapid spread of Spanish influenza in the eastern coal mining regions, both bituminous and anthracite production for the week ending October 5 was up to the seasonal average, says the report of the United States Geological Survey.

The bituminous output for the week was estimated at 12,585,000 net tons, an increase of 1,774,000 tons, or approximately 16 per cent over the production for the corresponding week last year. Anthracite production amounted to 2,062,000 tons, an output about equal to the production of the corresponding week last year. The total production of anthracite for the coal year to date is estimated at 53,700,000 net tons, an increase of approximately 2 per cent over the same period last year.

Reports showing the effect of the epidemic of influenza on the coal production have been received from central Pennsylvania, Maryland, West Virginia, Tennessee, Kentucky and Alabama. The most serious situation is said to be in the Cumberland-Piedmont mines, where many of the small mines have shut down and the larger ones are only half manned.

The bituminous figures given for the week ending October 5, while maintaining the average, show a decrease of 482,000 net tons, or 3.6 per cent, as compared with the week of September 23, which produced the vast total of 13,447,000 net tons.

The average production a working day during the week is estimated at 2,097,000 net tons, or 295,000 net tons in excess of the daily average of the corresponding week of last year.

Irving Berlin, America's rag-time King, has joined the army. Naturally, the first thing he did was to write a song about it. The next was to make that song the big hit of a musical comedy which his camp mates produced, and which played to "standing room only" audiences in New York and elsewhere. "Tip, Tip, Taipanik" is famous already—and Berlin's greatest song hit, "How I Hate to Get Up in the Morning," is the ditty that puts it over. It's the best camp song yet—you can get it now on a Columbia Record, one of the new November numbers just out, sung by Arthur Fields, who's been in camp himself, and knows what it is to hear the bugle call at 5 A.M.

Now and then comes a song which has just that rare combination of words and melody that makes it famous overnight. Who can say what subtle thing it is? "Smiles" is such a song—the sweetest melody, the most exquisite music, the richest, most lifting refrain you've heard in many a long year. It is exquisite. On a Columbia Record by Campbell and Fields.

PATRONIZE HOME MERCHANTS  
WHO ADVERTISE IN THIS PAPER

Burritt is one of the phonograph sensations of the season. How it at wonder dealer's and join the millions who are enjoying its captivating harmony.

Columbia has become famous for its sparkling dance records partly because of the peculiar popularity of Columbia tone for dance music, but chiefly because Columbia has picked the most famous dance music makers to make records. The month coming, will be recording dance music by the widely popular Wilber Sweatman's Original Jazz Band. It's entitled, "Indiana," with "Old Yeller Let" on the back.

"Bones of Picardy," as sung by Columbia, by Charles Harrison this month, is a song of tender beauty—a song that has a tear drop very near its haunting lines. It is a famous "hearsay" song, sung by a tenor famous for his sympathetic voice. On the back is "My Little Gypsy Wanda," by Lewis James.

These are but a few of the wonderful group that Columbia Dealers are always playing for their friends. But they are indicative of the rest. Listen yourself to a trust by hearing them.

FARMER WILL NOT  
FAIL U. S. IN ITS  
GREATEST TESTSECRETARY OF AGRICULTURE IS  
SURE RURAL SECTIONS WILL  
BUY BONDS.BY D. F. HOUSTON.  
Secretary of Agriculture.

The Fourth Liberty Loan will not fail for lack of support of American farmers. That is the answer I am giving to those who ask me what the response of the American farmer will be. I am making this confident assertion in the face of the fact that the American people are now being asked to make a colossal contribution to liberty—six billion dollars.

American farmers have demonstrated their patriotic support of the nation's great war loan. One of the most striking features of the Third Liberty Loan was the support given by the farming and rural populations. Not only did farmers purchase liberally of the bonds, but the rural communities as a rule were more prompt in completing their quotas than the larger cities.

More than twenty thousand communities in the United States subscribed or oversubscribed their quotas, many of them on the first day of the campaign.

The majority of these were not cities but country districts. Iowa, a typical agricultural state, was the first to subscribe its quota.

But we now have a greater effort to make. Our largest war loan has been launched. It will tax our determination to defend our liberty and our republic at all costs. Our armed forces in the field are fighting victoriously. The forces at home are now in an offensive that must not fail.

Let us buy liberally bonds that we may attain our objective, a righteous and lasting world peace.

The Yanks Are  
Buying Bonds

The Yanks are buying bonds. It's not enough. For them to live and die and suffer all.

The agony of living death. They know.

Just what their comrades die for when they fall.

They know it means to be here at home.

They know the menace of the Prussian lie.

To all the world and all the race to come.

They know just what they're fighting—yes, and why.

And, therefore, while they offer life, they say,

"It's not enough. Not now. If we can aid

In other ways, we must. We know the need

Of guns as well as lives in our crusade.

"We like our pay, but we can let it go. For such a thing as this. We'll do it, too.

And if the folks at home can't raise enough

We'll borrow some to bring those billions through."

Oh yes, the Yanks are buying. We can rest.

And know they'll make up what we don't provide.

If we can let them, then let's help the dead.

Knew not those whom they died for, are they dead!

—Lucy Jeanne Price.

56 State Banks Are  
Members of Federal  
Reserve Bank System

The Federal Reserve Bank of Cleveland and its system of member banks will one day soon represent a total of resources of one billion dollars.

Recent figures showed that in the Fourth District 56 state banks had been admitted to membership, and they have raised the total resources to \$603,278,000. Applications are pending from numerous other institutions in the district and as the bankers learn the advantages of being member banks all institutions will undoubtedly make application for membership.

The Federal Reserve Bank system of the country is credited with being the most powerful agent in making possible the flotation of the three Liberty Loans.

Concerning Eggs. The word egg occurs six times in the Old and once in the New Testament. Deuteronomy, 22:6; Job, 6:6, and 39:14; Isaiah, 20:15, and 36:6; Jeremiah 17:13; and Luke 11:12. Job 6:8 asks: "Can that which is unwholesome be eaten without salt? or is there any taste in the white of an egg?"

China's Big Canal. The imperial Canal of China has a total length of 2,200 miles, which exceeds that of any other in the world.

## WILL SAVE VAST AMOUNT WHEAT

Threshing Loss in State Over 1,000,000 Bushels a Year.

### FOOD ADMINISTRATION HELPS

Experts to Inspect All Rigs in State and Show Farmers How Their Product Can Be Saved

Five per cent or one-twentieth of all the wheat raised in Pennsylvania is wasted through threshing machines which need adjustment or reducing. As Pennsylvania raises roughly twenty-three million bushels of wheat each year it will be readily seen that the loss is more than one million bushels.

The Division of Agriculture interests of the Federal Food Administration for Pennsylvania at the direction of Howard Heinz, Federal Food Administrator for Pennsylvania has taken steps during the season just ending to remedy this condition and save to the government this enormous amount of wheat.

#### Many Machines Out of Order

In one country alone the experts find that nine out of every ten machines need some kind of adjustment in order to save the grain. Farmers were capable of saving. The owners and operators of these machines, it was found, are more than willing to follow the instructions given by a person who knows how these machines can be remedied and the grain saved.

In the county spoken of there are 900 to 1500 threshing rigs, as most of the farmers have machines of their own. While there is little waste in far as threshing out-of-doors is concerned there is considerable waste because the individual farmer not using the information he should have in operating the machine to the best advantage, has failed to renew the worn out teeth and other parts which have been used until they no longer perform their functions properly. The result is the waste above mentioned.

#### An Important Work

There are few movements on the part of the Food Administration that ed more serious consideration and more careful and thorough inspection work than this examination of threshing machines and there is scarcely anything that would mean more to the use of saving the necessary tools at this time considering the present connection with it.

Mr. Heinz and the other officials of the Food Administration are to the same immediate of this movement that it will be vigorously pursued.

### How the "Win the War" Spirit Rises Superior to Religious Differences

By NOLAN RICE BEST

PIERRE (By Mail)—The older brother of his soldiers begs them to be true to the precepts of the same war Army in France. A moral viewpoint is that its commanding general is just as anxious to see his soldiers maintain a certain standard of manly conduct as to see them come off victorious in battle. Not often has it been possible to say so much of any army and its leader—certainly never before in the American Lepidus force now in France. But it is equally true concerning General Pershing. And his sentiments in this regard are not merely utilitarian. He now fights well, of course, as any though soldier must, that an army made up of men sound and strong a personal character is necessarily a more dependable army in a military sense than could ever be constituted from rogues and ruffians. But his moral concern for men goes deeper than that. It is out of his own personal valuation of religious faith—his own experience of it that General Pershing has set his heart on having every soldier under his command preserve in France whatever religious faith he brought from the homeland—all of it at full strength—and get more of it if he can.

This is the malapprise of the encouragement which he commanding general has so constantly given to the Y. M. C. A., the Knights of Columbus, the Jewish Welfare Board and the Salvation Army. He wants his men under the influence of these religious forces. It is the secret also of his quite unexampled pains to develop the power and use of the chaplaincy among his troops—the reason why he insisted on creating the heretofore unheard of office of semi-chaplain of the arms and on appointing to the position the man who had been his own most strength and spiritual counselor—Bishop Moody. A first order ever issued to the top of such moving ringing appeal as that unofficial and mightily effective word of command so widely circulated by the Y. M. C. A. in which General Pershing, like an

old man now "he said sternly to the men I don't give a hang about your morals or your character that's no concern of mine but I am responsible for your keeping in fit condition to do your work as soldiers and therefore I demand that you keep out of places where you might contract contagion that would disable you."

The colonel of the regiment heard of the speech and promptly sent for the Lieutenant. "Did you talk to your men in this way that has been reported to me?" he asked. The lieutenant acknowledged the accuracy of the quotation. "Do you think the talk of that kind stands for the mind of your superiors and represents the spirit of the A. E. F.?" was the next question. The colonel was almost fierce. "Well, I tell you it doesn't. The business of an A. E. F. officer is to look out for the moral character of his men just as much as for their physical efficiency. You have been assigned to this regiment. You think you belong to it, but I want to tell you you are never going to belong to us until you revise your opinion about what you are here for. This regiment runs on a different idea."

The question of drink rests on the same basis. The higher up in the army an officer stands, the stronger generally speaking is his earnestness about inducing his men not to drink even the permitted French wines. One colonel said: "What made a prohibition out of me was seeing National Army regiments that have been organized out of the draft from the dry states—the states that have been dry a long time, so that their present generation of draft age has grown up without even seeing saloons. The draft men from Kansas for instance are simply magnificent in the officers and men from their very first arrival in camp or trench they fear nothing, risk everything and the army loves them."

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant antiseptic healing cream in your nostrils. It penetrates through every air passage of the head soothles the inflamed or swollen mucous membrane and relieves instantaneously.

Tell How To Get Quick Relief from Head-Colds. It's Splendid!

## DRATIC ORDERS TO SAVE FOOD

Very Hotel and Eating Place  
In State Affected by New  
Food Rules.

### CONSERVING ALL FOODSTUFFS

Heavy Penalties Will Be Imposed On  
Those Dealers Who Violate These  
Orders—They Must Obey or Go Out  
of Business.

**OBEY OR GO OUT OF BUSINESS**  
"Whereas the patriotic co-operation of public eating places cannot be secured by other means, the Food Administration will not hesitate to secure compliance with its orders through its control of the distribution of sugar, flour and other food supplies."

The most drastic and far-reaching orders regarding the conservation of food in hotels, restaurants, clubs and other eating places that have yet been issued by the Federal Food Administration were given out at the office of Howard Heinz, Federal Food Administrator for Pennsylvania, yesterday. These orders affect every public eating place in the State of Pennsylvania and are put into effect with the idea of helping to save the 17,300,000 tons of food which America must ship abroad before July 1st, 1919. This is an increase of 5,700,000 tons over last year.

This year the Food Administration does not ask the people to save a particular food but to save on all food stuffs and above all to eliminate every bit of waste possible. These are not requests, but orders, and the Food Administrators of various States will enforce them strictly by cutting off the food supply of hotel and restaurant keepers who are not sufficiently patriotic to accept them voluntarily. The orders go into effect on Monday, October 21st.

Administration Means Business.

The following are the general orders:

(1) All wheat bread served must contain at least 20 per cent. or wheat flour substitutes. Only two ounces of Victory bread shall be served to one person at one meal, sandwiches or bread served at boarding camps and rye bread containing 50 per cent or more rye flour excepted.

(2) Toast or bread shall not be served as a garniture or under meat.

(3) No bread shall be served until after the first course.

(4) Only one kind of meat shall be served to one person at one meal. By-products of meat and poultry are included in this.

(5) Bacon shall not be served as a garniture.

(6) Not more than  $\frac{1}{4}$  ounce of butter shall be served to one person at one meal.

(7) Not more than  $\frac{1}{2}$  ounce of American cheese shall be served to one person at one meal.

(8) Sugar bowls on table are forbidden. Sugar must be asked for by the patron before being served, and not more than one teaspoonful per meal shall be served to one person.

(9) Two pounds of sugar must last for 90 meals, including table and cooking uses, except in hotels holding a bakery license. No sugar secured for baking shall be used for any other purpose.

(10) No food shall be burned under any circumstances and all waste shall be saved for animal food or rotation.

(11) Food shall not be displayed in such a way as to cause deterioration or it cannot be used for human consumption.

(12) Double cream or cream de luxe shall not be served, nor any cream containing over 20 per cent. of butter fat.

In connection with these orders Herbert Hoover, Federal Food Administrator, says that they are necessitated by the military program, and in winning the war the part played by the Food Administration is very large and important. It means further self-sacrifice both by the Allies and by ourselves in order that all shall be fed.

#### Save Half Pound Per Week.

The average consumption in America of bread stuffs amounts to six pounds per week and of meats and fats to four pounds per week per person. A reduction in consumption of less than one-half pound per week per person in each of these food groups will accomplish what the Food Administration desires. Mr. Hoover, however, emphasizes that there is not to be any curtailment in the use of milk for children.

Nearly 9,000,000 people eat at the public eating places and the food consumption is larger than in the average home.

"The willingness of the vast majority to assume individual responsibility is this master," says Mr. Hoover, "is one of the greatest proofs of the character and idealism of our people. It is necessary that every family in the United States should see if it cannot buy less, serve less, return nothing to the kitchen and practise the gospel of the clean plate."

In laying down these points the Food Administration emphasizes the fact that the idea is to reduce consumption and waste and save food all along the line; not a particular food, but all food.

In addition to the general orders some suggestions are made by the Food Administration, while with the co-operation of the managers of hotels and restaurants will aid in serving great quantities of food.

Among these suggestions are that rolls should not weigh more than one ounce each. It is so important that all cereals should be served sparingly

as they are greatly needed abroad and are easy to store and transport.

Prices To Be Adjusted Also.

Another important feature of the orders is that if patrons desire, only one chop should be served and all portions of meat should be large enough only to meet the requirements of patrons. Prices, however, should be adjusted accordingly. It is also urged that as few fried dishes as possible be served in order to conserve all fats. No candies should be served after meals and ices made from sugar should be eliminated and honey, maple sugar, corn sugar and syrup used as sweeteners. Fresh vegetables and fruits should be used wherever possible and canned fruits and vegetables should be used as little as possible in order to save tin and labor.

Hotels and restaurants are also asked to use every possible means to economize in the use of coffee in order to release coffee ships to transport troops and supplies abroad and the service of American cheese with salads and in the form of macaroni and Welsh rarebits should be avoided. Rigid economy is urged in the use of ice as ammonia is needed in the manufacture of munitions.

The Food Administration believes the fourth meal of the day to be unnecessary and unpatriotic, but where suppers are served all meats should be eliminated and sea foods and eggs and by-products of meat should be substituted. Elaborate luncheons and banquets are also considered unpatriotic and should not be served. They are recognized by the Food Administration as necessary for social enjoyment, but such gatherings should be simple and the hours for such functions should be so regulated that the repast can take the place of one of the regular meals.

Saving Labor in Service.  
All public eating places are urged to reduce the use of China, linen and silver in order to effect a saving of labor. Wherever possible, food should be served in the dish from which it is to be eaten and service plates should be eliminated. All general bills of fare are to be abandoned as the great variety of dishes listed on them necessitates carrying large quantities of food and spoilage and waste always follow. A simple bill of fare, one for each meal with a limited number of dishes and changed from day to day to give variety is to be arranged and a standard form of menu card, about 6x10 inches is recommended. This is to be printed on paper or card board as of light a quality as possible. The simplified menu card alone will save thousands of tons of paper each year. It is also urged that all menu cards be printed in English only. The Administration encourages the use of vegetables, fruits and animal by-products, such as tongue, liver, kidney, etc.

The table d' hôte as served in America also comes under the ban on account of the inevitable waste and its use is discouraged. Where it is necessary to serve it, it should be limited to a few courses of small variety. All eating places are urged to use local and seasonal foods.

The fundamental principle of the regulation of public eating places depends upon the saving of waste and the use of left-overs to the best advantage. It is better that the people wait a few moments for their food than that an unnecessary amount be cooked in anticipation of a larger number of guests than will be served.

#### GAS MASKS

How the Children May Save Some  
Sammy's Life.

Every American has the chance for direct war service that will save the lives of soldiers. Carbon is needed to make millions of gas masks for the American army. Coconuts have furnished much of this material, but coconuts mean ships, and during the present shortage material for carbon must be found nearer home. The pits of apricots, peaches, prunes, olives, dates, cherries and plums and the shells of Brazil nuts, hickory nuts, walnuts and butternuts make carbon for masks that will outlast the most diabolical of the German gases.

Here is work for all, every home, church and school. Urge the boys and girls to scour the woods for nuts and invite your patriotic organizations to rally in making collections. See that the work is started in your neighborhood. Place collection boxes in schools, churches, banks and stores, and above all in your own home so your boys and girls can see the pile grow. It takes two hundred peach stones or seven pounds of nut shells to furnish carbon for a gas mask and save the life of an American soldier. How many masks can your neighborhood furnish?

Dry the pits and shells before turning them in to the nearest Red Cross chapter. This organization is in charge of collecting all material.

#### TAKE PHOTOGRAPHS AT NIGHT

Hindrances of Fog and Darkness Have  
Been Overcome by Development  
of New Process.

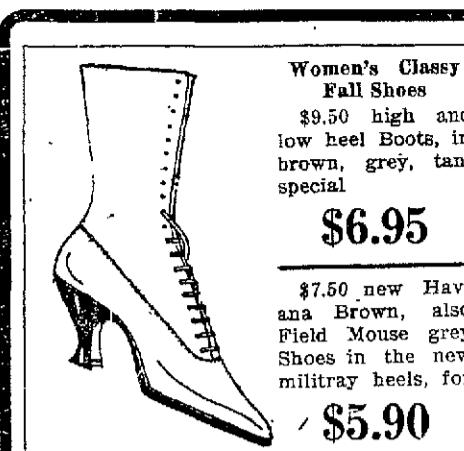

Neither fog nor darkness handicaps the superiority of the war department signal corps' cameras, according to Edward Hungerford, who describes the remarkable progress of wartime aerial photography in Everybody's. He gives some interesting examples:

"I have seen a photograph of a waning moon over Rome—taken by the new process. It is the first real picture of the moon that I have ever seen, although I formerly attempted to take it myself. Most of the moonlight pictures that one sees are 'fakes,' made by photographing the sun in various unusual and artistic phases. But this was real. One could see the tiny pools of water standing in the uneven places of the flagging, the flickering street lamps at the corner. A picture whose reality almost makes it uncanny. And the photographer who took the picture in the rain was arrested by a gendarme as being mentally unsound. He was only released when he took a picture of the lieutenant at the police station and proved beyond a question that he could make good portraits by artificial light."

In laying down these points the Food Administration emphasizes the fact that the idea is to reduce consumption and waste and save food all along the line; not a particular food, but all food.

In addition to the general orders some suggestions are made by the Food Administration, while with the co-operation of the managers of hotels and restaurants will aid in serving great quantities of food.

Among these suggestions are that rolls should not weigh more than one ounce each. It is so important that all cereals should be served sparingly

## LABOR SHORTAGE AT COKE PLANTS OF U.S. IS QUITE GENERAL

Is Resulting in Decreased Production in All of the Districts.

**SHORT 25,000 TONS A WEEK**

Is Estimate of the Fuel Administration: Approach of Winter Invades Southern States, With Plenty of Labor, Are Falling Behind Badly.

WASHINGTON, Oct. 16.—The Fuel Administration is manifesting concern over the continued decrease in coke production. Shortage of labor, which is more or less general in coke producing districts, combined with a slowing down in the production of some plants in the south, is resulting in an estimated shortage of 25,000 tons of coke per week, a condition which threatens loss in the output of steel and munitions. Notwithstanding the fact that more than 23,000,000 tons of coke were made during the six months between April and September 21, or somewhat more than one-half the rate of last year's production, the officials of the Fuel Administration hold out no hope of overcoming the shortage under existing conditions.

"Three fundamental difficulties," says an official, "contribute to the present situation, are shortage of labor at the mines, lack of adequate railroad transportation, and shortage of labor at the coke plants. Unremitting efforts are being made by employers and government officials to overcome these difficulties by appealing to the patriotism of the men on whom the production and transportation of coal and coke depend, and the success of such appeals is shown in the increased output of the mines and the maintenance of a steady production of coke in spite of the decrease in the number of men employed in the mines and at the coke plants.

"Officials, however, do not attempt to conceal the fact that the situation is causing them grave concern in view of the proximity of winter, and the increasing difficulties of transportation that will inevitably result from cold weather and from the additional strain that is being placed upon the railroads in transporting men to the training camps and carrying troops from the camps to the seaboard.

"Increase in wages has resulted in slowing down production at the coke plants in one of the southern states. The labor in that region consists of negroes and of whites who have not been accustomed to earn more than was barely necessary to meet needs the simplicity of which is reminiscent of a century ago. Placed suddenly in possession of more money as the result of a week's work than they ever saw before from one year's end to another, these men quit their jobs after a short time and return to their cabins in the mountains. They have failed to respond to the appeals made to their patriotism, and their attitude in this matter is attributed to their illiteracy and their consequent unfamiliarity with the issues involved in the war.

"There are more coke plants in operation in the United States today than ever before, and since the first of April of this year there has been a steady increase in the number of by-product plants which has resulted in an increase from 466,223 tons production for the week ending April 6, to 527,350 tons for the week ending September 21. This increase, however, is nearly 63,000 tons below the capacity of those plants.

"Production of beehive coke has been gradually falling off during the period referred to, and those familiar with the industry express the opinion that there will be an increasing reduction in the manufacture of coke in that kind of ovens. This opinion is based upon the increasing demand of the government for by-products indispensable to the manufacture of explosives. These by-products can be obtained only from the by-product coke ovens."

The War Industries Board, through the enforcement of its constantly extending program of conservation is supplementing the efforts of the Fuel Administration, the United States Railroad Administration, and the coke manufacturers to meet the demands of the steel mills and the munitions factories for the materials so vitally necessary to supplying the needs of the military and naval forces of the nation, and officials express the opinion that it will be possible to meet at least the minimum requirements of the nation's war industries.

## Says His Prescription Has Powerful Influence Over Rheumatism

Discoveries Tell Connellsville Drug Stores Not to Take a Cent of Any-one's Money Unless Alleviates Completely Handicaps All Rheumatic Patients and Relieves.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of consulting with physicians, that he could not be cured from rheumatism unless he could find a way to remove the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely relieved every sign and symptom of rheumatism from his system.

He truly gave his discovery to others who took it with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspaper Connellsville Drug Co. can supply you—Adv.

## Is the Price Right?

Was a time when that question was foremost in every man's mind when he went to purchase clothes.

He took quality for granted—and he was nearly always right.

But how different nowadays.

Clothing prices have advanced a long with wages and everything else. He knows he must pay more—and is willing to—but he DEMANDS that he receive quality in fullest measure for the price he pays.

Wright-Metzler Clothing stocks for Fall have been purchased on the quality basis alone.

They pay you back more in service and satisfaction than they cost you in money.

That's why we call them "Value-First" Clothes.

### "Value-First" Suits and Overcoats

As Low as \$20—As High as \$85

Practical, sensible, durable garments. All-American through and through.

Quality fabrics, handsome patterns and colorings, fine linings and finished workmanship constitute their make-up.

Give them reasonable care, and they'll give you good long wear.

The range of styles embraces everything from the liveliest models for high school students to the quietly dignified clothes many older men prefer.

And one of the very best things we can say about them is—they fit—must fit to your satisfaction before they leave the store.

Buy Them to Be Well Dressed.  
Buy Them to Save.

## When You're Cold and Shivery—It's Time for Winter Underwear

You can't change your underwear by the calendar and get away with it. Men have tried it, to their sorrow. The best way to feel well and KEEP WELL is to dress with the weather. Whenever you and the boys decide it's time to change, you'll find us ready with an immense stock of Winter garments that will exactly meet your ideas of weight, shape, style and fit.

### For Men—

Winter weight flexible ribbed Union Suits, form-fitting, closed crotch, choice of ecru and natural grey, in all sizes 34 to 50. Price \$2.00.

"Superior" and "Cooper" Union Suits in medium and heavy weight, perfect form-fitting, natural and gray worsted, sizes 34 to 50. Price \$3.00.

"Superior" and "Cooper" Union Suits, wool-mixed, sizes 34 to 50, guaranteed to give satisfaction. Price \$4.00.

"Superior" Wool Union Suits, medium and heavy weights in white and natural grey, sizes 34 to 50. Price \$3.00.

"Superior" fine grade worsted Union Suits, form-fitting, sizes 34 to 48. Price \$7.00.

### For Boys—

Boys' Winter weight flexible ribbed Union Suits, natural grey, sizes 24 to 34. Price \$1.00.

Boys' Winter weight wool Union Suits, natural grey, sizes 24 to 34. Price \$2.00.

Ask to Have Your New Underwear Fit by Tape Measure Instead of by Guess Measure. You'll Like the Result.

**\$2 to \$10**

From Borsalino, Schobel, Mallory and Stetson

Here are the best styles from leading American and Italian firms. No matter what your personal needs and ideas as to style are, we're ready to satisfy them.

**\$2 to \$10**

## JUDGE GARY SAYS WE MUST CONTINUE TO LEAD IN STEEL AFTER THE WAR

Will Be a Vast Demand for Both Domestic and Foreign Trade; Nothing Big for G.S.

Judge Gary, chairman of the board of the United States Steel Corporation, is optimistic on the future of the steel business in the United States. The Judge admits there will be great problems of reorganization and readjustment in the steel business, as well as in other lines, but reminds American business men that this is the leading country in the world; that the wealth of the world is largely here, and that we must continue to lead.

The steel plants of the United States are nearly 100 per cent on war material. The ordinary demands for steel have been ignored and are piling up. There will be practically two years of unfilled "peace" requirements to make

up, if peace were to come today. On top of this there will be the demand for the expansion due to changed conditions. There will be a vast demand for foreign trade.

There will be tremendous pressure on the steel plants after the war. There are changing conditions in the industry and everybody realizes that with the coming of peace there will be radical readjustments to be made.

If present prices are maintained, present wage rates will stand. Changes in practice will alter wage rates, here and there. Government operation of the railroads, with the power of dictating prices of steel equipment required, may affect conditions.

But Judge Gary voices a sound note when he says that American business will continue to progress and is not scared because business is being done on a larger scale than ever. It is just as easy to think and plan in millions as it is in thousands. A few ciphers, more or less, at the right hand end of the row makes no difference. Besides

there is the wonderful development of the American spirit and the consciousness that nothing is too big or too difficult for the United States to tackle and accomplish.

### SUCCESS AFTER THE WAR

The Successful Man After the War Will Be the Man With Money.

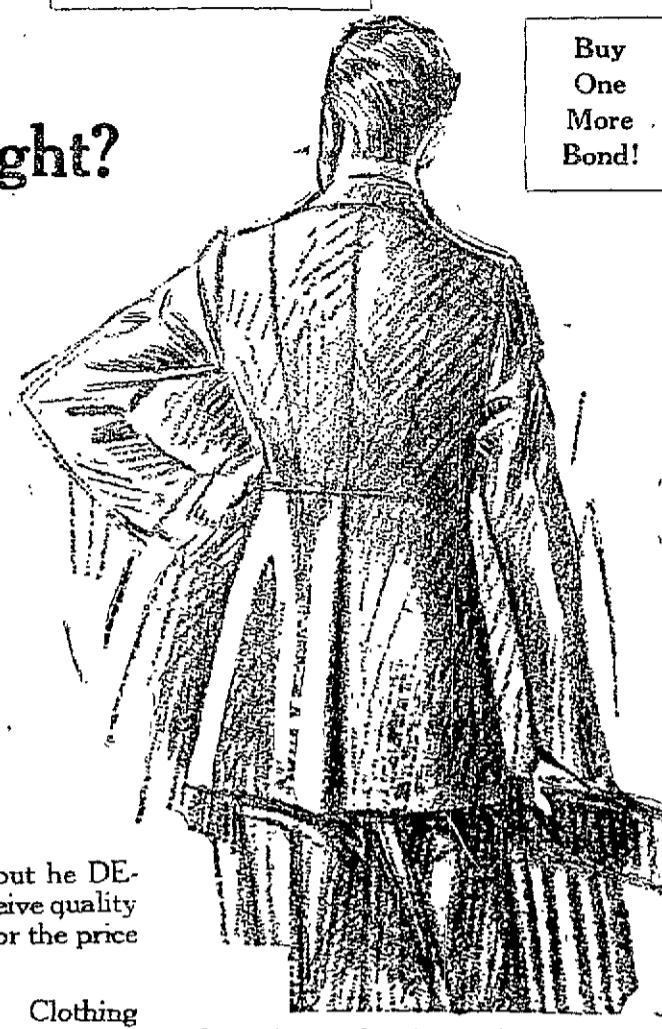

The man who saves money will be the successful man after the war. The importance of money after the war can scarcely be appreciated. Experience during the Civil War period has made it plain that the man who had money was the successful man. The same experience will be repeated after the present war. The Citizens National Bank invites the Savings Accounts of working men and women and pays interest. 138 Pittsburg street—Adv.
